This standard refers to assemblies that require a specific tightening load and replaces previous standards BS 4395 Parts 1 & 2, Din 6914, JSS II 09 and BS7644 Part 1. This standard must be adhered to on all manufactured product after October 2007. Any products produced previously to BS 4395 Parts 1 & 2 and Din 6914 can still be sold as pre-loadable bolts.

These products manufactured to BS EN 14399 must comply with the construction directive 89/106/EEC which requires that all products are CE approved and marked. Bapp Group Limited have decided that the method of CE marking will be done by using a label clearly showing the 'CE' mark.
